

EARLY PLANNING TOOLKIT

A GREAT START:

Early Planning Priorities for
Parents/Caregivers with
a Young Child with a Disability

We all share the same dream for our children—a life filled with friends, joy and opportunities. As a parent/caregiver of a child with a disability, we know you already have a lot on your plate. But there are things you can do now that will make a huge impact on your child's future. **The Early Planning Toolkit** will help you get started.

The **Great Start Webcast** is the first of two webcasts offered in the Early Planning Toolkit and touches on those critical ideas you can focus on now that will impact your child's future.

Dr. Peter Rosenbaum of the CanChild Centre at McMaster University speaks to the limitless potential of children with disabilities. Plus, two proactive mothers with young children with a disability share their insights on advocating, building a team, finding friends and transitioning to school.
